WHEREAS:

The new state of Andhra Pradesh has come into existence after bifurcation of the erstwhile combined state of Andhra Pradesh in June-2014. In the process of fulfilling its commitment for formation of a modern State, the State has initiated its endeavors, primarily on infrastructure building and rapid industrialization. To support this initiative, Government of Andhra Pradesh (GoAP) has identified manufacturing as a key area and is establishing clusters to nurture growth in vital sectors like Auto and Electronics by setting-up industrial corridors, Special Economic Zones (SEZs) etc.. The immediate necessity for industrialization is the manpower development. In the process of industrialization and infrastructure building, it is obligatory on the part of GoAP to simultaneously develop a large pool of skilled manpower to cater to the needs of the industry and service sectors. In this endeavor, the State has earnestly decided to address the skill shortage which is much projected by the user industry. The initiative of Statewide high priority for skill development shall also ensure up-gradation of skills. The sectors with largest manpower requirement in the coming years will be Manufacturing, Construction, Hospitality, Banking, Financial Services and Insurance and Information Technology/IT enabled services.

Eventually, the Skill Development has occupied the key focus area of GoAP. The process of developing large pool of skilled manpower has been envisaged in partnership with industry to make the skill development mission more industry relevant and self-sustainable. In the process of achieving these goals, the GoAP has incorporated APSSDC as a special corporate which shall strive for the appropriate and demand driven Skill Development.

APSSDC in its several meetings has discussed and decided to achieve the goal of skill development with participative approach of the stakeholders viz. the Government, Industry, academic institutions, youth and all other stakeholders. This participative approach will go a long way in accomplishing the task in economical, appropriate proportions with relevance in the shortest period. The APSSDC would provide the extra infrastructural requirements in selected academic institutions. In this process, the APSSDC has selected some of the leading Engineering Colleges/Govt. Polytechnics/Industry associated training institutions for providing the infrastructural facilities additionally required for running the Skill Development programs.

The APSSDC and SRK Institute of Technology which is selected for CM's Skill Excellence Center (SEC): ICT Lab have mutually discussed and agreed to enter into this agreement as detailed hereinafter.

Introduction:

Git is a free and open source distributed version control system designed to handle everything from small to very large projects with speed and efficiency. Git is easy to learn and has a tiny footprint with lightning fast performance. It outclasses SCM (Software Code Management) tools like Subversion, CVS, Perforce, and ClearCase with features like cheap local branching, convenient staging areas, and multiple workflows.

GitHub is an American company that provides hosting for software development version control using Git. It is a subsidiary of Microsoft, which acquired the company in 2018. It offers all of the distributed version control and source code management (SCM) functionality of Git as well as adding its own features. It provides access control and several collaboration features such as bug tracking, feature requests, task management, and wikis for every project.

Software Documentation / Technical Documentation is an important task during the product development so that the users need not to worry about how to use your product. From a very small project to a project with a huge number of developers, technical documentation writing is easy by using ReadTheDocs and Sphinx tools.

Cisco Academy Membership Agreement

Welcome to the Cisco Networking Academy. This agreement governs your Academy's participation in the Cisco Networking Academy.

The Networking Academy Membership Guide for Cisco Academies ("NAMGCA") describes the benefits, roles and responsibilities of Cisco Systems, Inc. or its subsidiary responsible for distribution in the country in which you are located ("Cisco") and your Academy. The NAMGCA forms part of this agreement, and will be made available to your Academy by Cisco. Your Academy should review the NAMGCA carefully before agreeing to participate in the Cisco Networking Academy. By accepting this agreement your Academy agrees to comply with the NAMGCA. As the Cisco Networking Academy evolves, changes to the NAMGCA may be appropriate. Cisco will exercise reasonable efforts to provide advance notice to your Academy of any major changes to the NAMGCA.

Cisco provides all resources, course materials, services, websites or other deliverables "as is", without warranty of any kind (as far as Cisco is permitted to do so by law). Further details are set out in the NAMGCA.

The following provisions (a)-(c) govern your treatment of personal information of Academy and Cisco Networking Academy participants (*i.e.* employees, students, instructors, administrators, or any other of your Cisco Networking Academy participants) ("Cisco Networking Academy Participants") provided to or otherwise obtained by Cisco from your Academy in connection with the Cisco Networking Academy:

- (a) By entering into this agreement, your Academy will ensure that Cisco Networking Academy Participants have given their unambiguous consent, to the processing of their personal information by Cisco: (i) from within and outside of the European Economic Area and those countries deemed to have adequate data protection laws in connection with processing the personal information; and (ii) in accordance with Cisco Networking Academy Privacy Policy, as amended from time to time and located at <http://www.cisco.com/web/siteassets/legal/privacy.html>.
- (b) Your Academy agrees to comply with: (i) applicable data protection laws and regulations, including your Academy's obligations as data controller under those laws and regulations; and (ii) Cisco's Networking Academy Privacy Policy located at <http://www.cisco.com/web/siteassets/legal/privacy.html>.
- (c) To the maximum extent permitted by law, your Academy shall defend, indemnify and hold harmless Cisco and its officers, directors, employees, shareholders, customers, agents, successors and assigns from and against any and all loss, damages, liabilities, settlement, costs or expense (including legal expenses and the expenses of other professionals) as incurred, resulting from or arising out of your Academy's breach of applicable laws relating to the treatment of personal information including any claim for the unauthorized solicitation, collection, storage, forwarding, or use of personal information. As a condition to such defense and indemnification, Cisco will provide your Academy with prompt written notice of the claim and permit your Academy to control the defense, settlement, adjustment or compromise of any such claim. Cisco may employ counsel at its own expense to assist it with respect to any such claim, provided, however, that if such counsel is necessary because of a conflict of interest of either your Academy or your Academy's counsel or because your Academy does not assume control, your Academy will bear the expense of such counsel. Cisco shall have no authority to settle any claim on behalf of your Academy.

Your term of membership in the Cisco Networking Academy is three years (36 months), commencing on the date when Cisco executes this agreement. The term shall be automatically renewed for additional twelve (12) month terms unless (i) sixty (60) days prior to the end of the then-current term one party gives written notice to the other party of its election not to renew this agreement. Notwithstanding the foregoing, either Cisco or your Academy may terminate this agreement without any liability to the other party for any reason or for no reason by providing at least thirty (30) days' written notice to the other. Either party may refuse to extend or renew the three year term for any reason or no reason.

By clicking "Accept", you represent that you are authorized to enter into this agreement (including the NAMGCA) on behalf of your Academy.

On behalf of the Cisco Networking Academy global community, Welcome! By signing this agreement your Academy is taking an important step in bringing new opportunities and knowledge to your students, the future architects of the networked economy!

How we get results

- **Goal Oriented** :
All our programs are outcome based. Our aim is results, not completion of hours.

- **Customized and Dynamic:**
Our CRT is customized taking into account the quality of intake, major hiring companies, placement strategy, segregation of students based on needs.

- **Measure Progress** :
Progress is measured at regular intervals. No program is conducted without measuring progress.

- **Identify Gaps** :
Needs are identified based on desired outcome and current status. Focused training strategy for students who are low of employability skills to improve overall placement results.

- **Practice** :
Practice makes a man perfect! We believe in this and that's why practice is an integral part of our programs.

- **Length of Training** :
Length of the program is designed based on the outcome and gaps.

- **Daily Training Hours** :
Programs are conducted for 2-3hours per day. We all know, anything more than that will not be effective.

- **Multiple Phases** :
Our programs are spread across many phases so that the assimilation and retention is better.

Sub: - Acceptance for Internship- Reg

Dear Sir,

I am writing this letter in response to your letter dated 26.4.2021. We are delighted to accept the request of online internship for EEE students with our company. We have decided to take internees from your college to work on our different ongoing projects on **Micro Controllers** starting from May 05th, 2021 to May 25th, 2021. During this period, your students will be designated as "Internees" at our company.

All the details in connection with the internship and duties of the respective internee will be shared on the very first day of their internship with us. During the period of internship, the internees will come across sensitive information and important details of the company. Therefore, they will need to sign an agreement with the company on their date of joining to maintain the confidentiality of company information. And once on successful submission of a detailed project report on their internship, the company will issue them an Internship Certificate.

With best regards,

Managing Director,

SRK Institute of Technology, Enikepadu Vijayawada – 521 108, Andhra Pradesh

AND

Administrative Staff College of India, Bella Vista, Raj Bhavan Road, Khairatabad,

SRK Institute of Technology, Enikepadu, Vijayawada – 521108, Andhra Pradesh, (herein after called SRKIT) is affiliated to Jawaharlal Nehru Technological University, Kakinada, Andhra Pradesh. SRKIT has taken a progressive step in the field of sanitation by initiating actions for incorporating Open Defecation Free ++ (ODF++) / Faecal Sludge and Septage Management (FSSM) in the certification program soon to be launched at SRKIT. Also, it is decided to take a step towards sensitizing motivated students working in the field of FSSM. This would go a long way in realizing the vision of making Andhra Pradesh an ODF++ state.

SRKIT herewith has taken yet another progressive step towards girl students. Despite growing number of girl students in engineering streams, there is still a gender gap that needs to be bridged. In this regard, it is decided to take a step in sensitizing the community on the need for empowerment of women. Also, if girl students are trained as change makers for environment related issues, it will go a long way in protecting the environment and society.

Administrative Staff College of India (herein after called ASCI) is a leading institution offering training, research and consultancy services in the field of urban management (amongst other areas) with a focus on urban sanitation and water. The ASCI is a knowledge partner to Government of Andhra Pradesh (GoAP) for helping the state achieve its urban sanitation goals. The ASCI has established a Technical Support Unit (TSU) at Swachha Andhra Corporation which also supports the Commissioner and Directorate of Municipal Administration (CDMA) in implementing the Faecal Sludge and Septage Management (FSSM) policy and all the activities within that. With a view to sustain the sanitation improvements being undertaken by the GoAP, ASCI is committed to build the capacities of academic and research institutes of repute.

The Memorandum of Understanding covers the following points:

1. ASCI to support SRKIT in developing syllabus and support material to introduce

course on Faecal Sludge and Septage Management in the Environmental Science subject in the SRKIT from the academic year 2020-2021 onwards.

2. ASCI to provide internship opportunities to students.
3. ASCI to provide research and consulting assignments to faculty members in FSSM as and when an opportunity arises.
4. ASCI to undertake training of faculty members of SRKIT on FSSM.
5. SRKIT to organize academic and professional seminars, workshops on FSSM
6. SRKIT to introduce a Certificate course on Faecal sludge and Septage Management. SRKIT will finalize syllabus and course material in consultation with ASCI.
7. SRKIT to organize training programs on sanitation (ODF, ODF+, ODF++) for different stakeholder groups in partnership with ASCI.
8. ASCI to hold conduct guest lectures, seminars and workshops to impart knowledge of opportunities and tools available and train women.
9. ASCI to hold seminars/workshops to educate on women specific health issues and measures to be taken.

The responsibilities of the two parties under each of the aforementioned topics are elucidated in the following table:

PROGRAM REPORT

Date: 21-06-2021

- Title of the Program:** An Online Seminar on "FAECAL SLUDGE & SEPTAGE MANAGEMENT- AN APPROACH FOR SAFER ENVIRONMENTAL SANITATION"
- Resource person :** Sri Uday Singh Gautam, State Program Manager & Sanitation Expert, ASCI stationed at Vijayawada, Andhra Pradesh. Ph.no.9849333311.
- Guests:** Dr. Malini Reddy & Dr. Priyanka Reddy
Members of ASCI, Hyderabad
- Duration :** 2hours (11:00AM to 01:00PM)
- No. of Participants :** 124
- Organized by:** Department of Civil Engineering, SRKIT.
- Collaboration:** Conducted in association with Administrative Staff College of India, Hyderabad (ASCE) as a part of the MoU signed with the Institute.
- Description :** Sanitation in India is a key to achieving improved public health and enhanced socio-economic outcomes. To achieve this objective, Ministry of Urban Development has launched two key schemes namely, Swachh Bharat Mission (SBM) and Atal Mission for Rejuvenation & Urban Transformation (AMRUT). While SBM aims to end open defecation by universalizing construction and use of toilets, AMRUT is aimed at strengthening the sewerage and water supply network of the country. Both schemes aim to holistically address the existing gaps under the sanitation value chain in India.
- At present, the penetration of sewerage systems is low in the country and more than 45% of urban Indian households are dependent on On-Site Sanitation (OSS) systems. Thus, till the time the Government's vision of 100% sewerage universalization is

achieved, it is felt that faecal sludge output needs to be managed in an environmentally safe and sustainable manner using complementary and alternative methods of treatment. In view of this, the Ministry of Urban Development is launching the National Policy on Faecal Sludge and Septage Management (FSSM) to facilitate nationwide implementation of FSSM in India.

Main Objective: To impart knowledge on all the important aspects of Faecal Sludge for the design and operation of a comprehensive FSSM system.

Broad Objectives:

1. To ensure that all benefits of wide access to safe sanitation accrue to all citizens across the sanitation value chain with containment, extraction, transportation, treatment, and disposal / re-use of all faecal sludge, septage and other liquid waste and their by-products and end-products.
2. To promote access for households to safe faecal sludge and septage management facilities (including proper disposal arrangements).
3. Suggest and identify ways and means, including the methods and resources, towards creation of an enabling environment for realising safe and sustainable FSSM in India.

Content covered by the Resource Person:

- ✓ Design of septic tanks, pits etc. (adapted to local conditions), including siting, and methods of approval of building plans, or retro-fitting existing installations to comply with rules and byelaws.
- ✓ Delineation of private (individual houses, groups housing, institutions etc.) and public responsibilities (urban local bodies and other local authorities) in relation of faecal sludge and septage management.
- ✓ Details of the planning and implementation process for carrying out safe and sustainable management of all faecal sludge and septage. This may be integrated with overall city land use planning, with the timelines for holistically addressing waste water management via on-site, decentralised or centralised systems.
- ✓ Special provisions for medium and large format real estate developments.
- ✓ Frequency of desludging, and O&M of installations and the responsibilities of householders (owner/occupant).

- ✓ Operating procedures for desludging including safety procedures with an emphasis on the safety, health and dignity of sanitation workers.
- ✓ Licensing, record-keeping, monitoring and reporting arrangements for faecal sludge and septage service providers.
- ✓ Methods and locations of transport (conveyance), treatment and safe disposal.
- ✓ Tariffs or cess/tax etc. for septage management in the city. Penalty clauses for untreated discharge for households as well as desludging agents and unsafe emptying and handling of faecal waste.
- ✓ Regular monitoring and evaluation of the entire process of FSSM.
- ✓ Training, accreditation, education and awareness programs.

Outcomes:

1. Have an understanding of the treatment, management, and planning aspects related to FSM, and how they interact;
2. Comprehend the importance of proper sludge characterization for optimal collection and transport, treatment and reuse;
3. Apply engineering fundamentals to design systems for management and treatment of faecal sludge;
4. Place FSM in an urban waste management context for sustainable and feasible planning of FSM systems.

SRK Institute of Technology, Enikepada, Vijayawada – 521108, Andhra Pradesh, (herein after called SRKIT) is affiliated to Jawaharlal Nehru Technological University, Kakinada, Andhra Pradesh. SRKIT has taken a progressive step in the field of sanitation by initiating actions for incorporating Open Defecation Free ++ (ODF ++)/ Faecal Sludge and Septage Management (FSSM) in the certification program soon to be launched at SRKIT. Also, it is decided to take a step towards sensitizing motivated students working in the field of FSSM. This would go a long way in realizing the vision of making Andhra Pradesh an ODF++ state.

SRKIT herewith has taken yet another progressive step towards girl students. Despite growing number of girl students in engineering streams, there is still a gender gap that needs to be bridged. In this regard, it is decided to take a step in sensitizing the community on the need for empowerment of women. Also, if girl students are trained as change makers for environment related issues, it will go a long way in protecting the environment and society.

Administrative Staff College of India (herein after called ASCI) is a leading institution offering training, research and consultancy services in the field of urban management (amongst other areas) with a focus on urban sanitation and water. The ASCI is a knowledge partner to Government of Andhra Pradesh (GoAP) for helping the state achieve its urban sanitation goals. The ASCI has established a Technical Support Unit (TSU) at Swachha Andhra Corporation which also supports the Commissioner and Directorate of Municipal Administration (CDMA) in implementing the Faecal Sludge and Septage Management (FSSM) policy and all the activities within that. With a view to sustain the sanitation improvements being undertaken by the GoAP, ASCI is committed to build the capacities of academic and research institutes of repute.

The Memorandum of Understanding covers the following points:

1. ASCI to support SRKIT in developing syllabus and support material to introduce

course on Faecal Sludge and Septage Management in the Environmental Science subject in the SRKIT from the academic year 2020-2021 onwards.

2. ASCI to provide internship opportunities to students.
3. ASCI to provide research and consulting assignments to faculty members in FSSM as and when an opportunity arises.
4. ASCI to undertake training of faculty members of SRKIT on FSSM.
5. SRKIT to organize academic and professional seminars, workshops on FSSM
6. SRKIT to introduce a Certificate course on Faecal sludge and Septage Management. SRKIT will finalize syllabus and course material in consultation with ASCI.
7. SRKIT to organize training programs on sanitation (ODE, ODE+, ODE++) for different stakeholder groups in partnership with ASCI.
8. ASCI to hold conduct guest lectures, seminars and workshops to impart knowledge of opportunities and tools available and train women.
9. ASCI to hold seminars/workshops to educate on women specific health issues and measures to be taken.

The responsibilities of the two parties under each of the aforementioned topics are elucidated in the following table:
