Description :

Mr. Prabhakar Ballapalle, a Technologist at Western Digital, Bangalore, gave an interesting talk on Man and Machine. In the age of rapid development and industrialisation, one of the most popular and heated debate is that of man versus machine. Today is no doubt, the age of machine. What a man can produce manually in an entire day can be effortlessly produced by a machine in an hour. This was the one of the many things that triggered automation in the manufacturing industry. It is said that machine is superior to man but in reality, one cannot be of any use without the other.

The Principal, Dr. Ekambaram Naidu, gave the opening remarks. The programme was concluded with vote of thanks proposed by Sri. Yellamanda Vusa.

Description :

Mr. Prabhakar Ballapalle, a Technologist at Western Digital, Bangalore, gave an interesting talk on Scientific temper and Spiritual wisdom. India is at cultural cross roads. We have had an extra ordinary spiritual heritage which has continued for thousands of years despite persecution by invaders from different parts of the world. Spirituality is the study of the totality of reality and science is study of subset of reality. If spirituality is defined as our longing for higher understanding, then that longing for higher understanding can lead us to spiritual understanding. But that longing can also lead to scientific understanding.

Students were made to understand the importance of inquisitiveness and how to connect it to the understanding of spirituality. The Principal, Dr. Ekambaram Naidu, gave the opening remarks sharing the need to understand Scientific temper and Spiritual wisdom. The programme was concluded with vote of thanks proposed by Sri. Yellamanda Vusa.
