Objectives of the Collaboration:

1. To provide employable skills to civil engineering students during their course at the college.
2. To make the student aware of the latest tools and techniques at an affordable fee in order to keep them industry ready at the end of their course.
3. To maximize placement opportunities for the said students.
4. To build the confidence level of the student to face the challenges of the real time.

This Memorandum of Understanding is to conduct a Unique, Systematic and Employable Skills Development Program for the civil engineering students of the college towards achieving the objective of maximizing the employable opportunities for students of the college.

This Memorandum of Understanding states the terms and conditions under which the Trainings shall be conducted by CADD Centre at the College premises and lists herein the respective responsibilities of both parties.

PREAMBLES:

For a student to be recruited by a good company, over and above the curriculum subject knowledge, he/she is expected to have following.

1. Strong Fundamentals in Civil Engineering Knowledge.
2. Engineering related Multiple Technical Skills – Develop skills that adds value.
3. Project Management & Operational excellence – Learn & Acquire the skills.
4. Communication & other soft skills.

While subject knowledge would be provided by the college, CADD Centre will equip the students with required industry specific technical, project management and people skills.

On one hand, thousands of unemployed engineering graduates are not finding suitable jobs, while on the other hand, Industry requires millions of young minds in all levels but unable to find the right candidates. This is because of the skill gap that exists between academic institutions and industry requirements. This skill gap is sought to be minimized for the students of the "college" by facilitating them to acquire the appropriate and relevant skills at the college itself.

Through this collaboration, CADD Centre will prepare the students of the "College" to be ready for industry by the time they enter the final semester and for this the students have to be nurtured and trained in different areas from the very beginning. Keeping in mind the academic program and the progressive skill development cycle in mind, the programs are spread across their semesters.
