SRK INSTITUTE OF TECHNOLOGY

An ISO 9001:2015 Certified Institution,
Affiliated to JNTUK, Kakinada,
Enikepadu, Vijayawada, 521108,
AP, India.

ABOUT THE INSTITUTION

SRK Institute of Technology was established in the year 2007 under JNTUK Affiliation. It is located in the heart of Rural Vijayawada, the new capital city of Andhra Pradesh. Since its inception in 2007, the institution has been dedicated to impart quality education to professional students for innovations and leadership qualities in a global competitive world. The institution is offered engineering courses in CE, CSE, ECE, EEE, IT, M.E. and Post Graduate Courses M.Tech in CSE, ECE, MCA & MBA.

ABOUT THE DEPARTMENT

The Department of Civil Engineering is an under graduated programme of the college and was started in the year 2007 with an intake of 60 students and the strength increased to 120 in 2009. The department has well established laboratories and well qualified faculty in various specialized areas of Civil Engineering like Structural Engineering, Geo-Technical Engineering, Water Resource Engineering, Transportation Engineering and Environmental Engineering.

The department has conducted workshops, guest lectures, techno-fests and training programs in association with various organizations. The department is actively participated in R & D activities by offering the student live projects and guest lectures by academicians and industrial experts. It maintains the data base of old students of the department and regularly interacts with them

by conducting alumni meets in the department. One of the greatest strength of the Civil Department is its involvement in offering consultancy services for both public and private sectors in major area of Civil Engineering Constructions.

ABOUT FACULTY DEVELOPMENT PROGRAM (FDP)

The Main objective of the FDP is how to deliver the subject effectively in the classroom and methodology in different areas of students project work.

1. To improve Teaching learning Process
2. Developing Instructional Objectives
3. To improve latest trends in effective teaching
4. How to carryout the students live project work

THE RESOURCE PERSON

The Eminent Resource persons from Industry and Reputed Institutions will contribute as speaker to enrich the FDP.

Professor A. GopalaKrishnaiah,

having more than 12 years of Industrial Experience in designs of Civil Engineering structures and 30 years in teaching.

PARTICIPANTS CAN BE

Practicing Engineers, Government Officials, Architects, Builders, Faculty members, Research Scholars and PG.Students.

About SRK Institute of Technology

SRK Institute of Technology is a professional college affiliated to JNTU, Kakinada, offering engineering under graduate courses in CE, CSE, ECE, EEE, IT and ME, post Graduate courses in ECE, CSE, Computer Application and Business Administration. It was established in 2007 under the aegis of SRK Foundation.

About the Department

The Department of English, a part of Science and Humanities department, trains the student in promoting communication and soft skills in general and campus recruitment in particular. The department also motivates the student to take an active part in co-curricular and extra-curricular activities held on and off the campus.

Objective of the Programme

The Programme is meant for the faculty of SRK Group of Institution. It is intended to address the problems of the faculty related to the use of English language especially in teaching technical subjects. The programme is also meant for guiding the faculty members to crack Business English Communication exam (Preliminary, Vantage or Higher). The certification will be an added advantage to the teachers.

A 50 hour duration course was conducted for faculty. The course content was designed to address the needs of the teachers.

The course was designed by CELTA (Certificate in English Language Teaching to Adults) certified trainers from Acharya Educational Services, Bangalore. CELTA is an internationally recognized teacher training and certification programme moderated and accredited by Cambridge Assessment English (UK). The training was for supporting teachers to take TKT (Teaching Knowledge Test) Certificate exam or BEC (Prelim or Higher). The programme is designed for enabling the teachers to enhance their English proficiency and classroom communication. Each and every session had face to face interaction and lively discussion with the trainers. An assessment test to evaluate the progress of the teacher learning was conducted. The faculty members participated in the course very enthusiastically and gave a positive feedback. This programme was conducted to promote English for teachers of other subjects.

PROGRAM REPORT

NAME OF THE PROGRAM: Python Programming – A Complete Hands On Approach

DATE: 06-11-2017 to 11-11-2017

TIMINGS: 09:30 AM – 5:00 PM

One-Week Faculty Development Program on “PYTHON PROGRAMMING – A COMPLETE HANDS ON APPROACH” was conducted at SRKIT 06-11-2017 to 11-11-2017 around 33 participants from SRKIT, Enikepadu. The program was enriching and intellectually stimulating for the participating faculty.

Prof. Dr D. Haritha, (FDP convener), Head of Department CSE and MCA, SRKIT in her welcome speech highlighted significance of python programming in ML & AI applications. She outlined the objectives of python programming, FDP in SRKIT and instructed all faculty of CSE, IT & MCA to utilize this FDP to full extent.

Hon. Principal Dr. M. Ekambaram Naidu gave message that if faculty have to develop themselves in latest technologies and then train students. He also reiterated attending faculty development programs would enhance the skills of teaching concepts as well as applications.

On the first day of FDP, **S. Ram Kumar**, Asst. Manager, Educational Technology, ICT Academy discussed about how to design a calculator in python programming and explained about the loops and conditional statements in python with many real time examples. He also listed the uses of tuples and list in Python. On the second day **S. Ram Kumar** discussed about different topics like Birthday Paradox, Google Translate Speak in any Language, Monte Hall and so on. On the third day **S. Ram Kumar** explained the concepts of Substitution Cipher and what is the secret of Sentiment Analysis in Facebook. On the fourth

About UTL Technologies

UTL Technologies Ltd is a UTL Group company, one of India's highly appreciated and widely recognized prominent high-end training organization in providing Industry relevant training solutions to Students, Working Professionals and Corporate houses. UTL Technologies is empanelled with Ministry of External Affairs, Government of India to deliver various technological training programs in emerging technologies for participants coming from 158 Countries in Asia, East Europe (including former USSR), Central Asia, Africa, Latin America, the Caribbean as well as Pacific and Small Island countries.

Objective of FDP

The FDP aims to deliver knowledge to the participants on the following concepts:

- Wireless overview summarizing telecom- mobile legacy network operations.
- 4G Network Architecture & Operations.
- LTE-4G channel realization using visualization tool.
- 5G Impacts, Architecture, Operations, IoT operation overview.

LTE Course Highlights

Day 01 : Wireless Overview

- Summary on Legacy network (2G & 3G)
- Need of future network
- 3GPP Specs of 4G
- Discussion (Q & A)

Day 02 : LTE-4G Overview

- Features, Specifications, Architecture & Operations
- Enhancements, Limitations, VOLTE & CSFB
- 4G - Technologies
- Chris Johnsons LTE Visualization Tool

Day 03 : LTE-4G & Advanced

- LTE Hand Overs
- LTE Internetworking
- LTE Versions R-10 & LTE- R-11

Day 04 : 5G

- Introduction, Impacts, Need and Necessity
- 5G Forums, Proposals, Operations & Considerations
- Overview on SDN (Software Defined Networking)
- NFV (Network Function Virtualization) Overview

Day 05 : Telecom IoT & Cloud

- IoT (Internet of Things) -Overview
- Cloud Computing Management
- Overview of IoT Smart city

Day 06 : Hands On

- Simulation Tool
- Valedictory

Eligibility

Faculty members, PG Students, Research Scholar and Industry participants.

Program Report

Date: 03-01-2018

Duration: 1 week (26-12-2017 to 31-12-2017)

The Departments of Electronics and Communication Engineering and UTL Technologies Ltd jointly organized a One week Faculty Development Program on “**Long Term Evolution (LTE)**” from 26-12-2017 to 31-12-2017. The Resource Persons for the Session are **Flt.Lt.AT Kishore**, Principal Consultant Telecom, UTL Technologies Ltd, **Mr. Yuvaraja B R**, Technical Consultant Telecom, UTL Technologies Ltd.

No of Participants: 40

On day-1, **Mr. Flt.Lt.AT Kishore**, clearly explained about summary on legacy network, need of future network and 3GPP Specifications of 4G.

On day-2, **Mr. Yuvaraja B R**, clearly explained about features, specifications, architecture, operations, enhancements, limitations and VOLTE & CSFB.

On day-3 **Mr. Yuvaraja B R**, clearly explained LTE hand overs, LTE Internetworking and LTE versions R-10 & LTE – R11.

On day-4, **Mr. Ft.Lt.AT Kishore**, clearly explained about impacts, needs, necessity, 5G forums, proposals, operations & considerations, overview on SDN and Network function virtualization.

On day-5, **Mr. Yuvaraja B R**, clearly explained about Internet of things, cloud computing management and IOT Smart city.

On day-4, **Mr. Yuvaraja B R**, clearly explained about Hands of practice and valedictory.

This Faculty Development Program is very useful for all the faculty, participants are very satisfied, they got good knowledge on different generations of Communications.

Course Objectives:

1. Understanding the need of future network
2. To know the complete information of 4G technology
3. To know the complete information of 4G technology advanced
4. Understanding complete information of 5G technology
5. Understanding Internet of Things(IOT)
6. Understanding Cloud Computing Management

Course Outcomes:

1. Understood the need of future network
2. Understood the complete information of 4G technology
3. Understood the complete information of 4G advanced
4. Understood complete information of 5G technology
5. Understood about Internet of Things(IOT)
6. Understood about Cloud Computing Management

ABOUT THE INSTITUTION

SRK Institute of Technology is a professional college affiliated to JNTUK, Kakinada, offering Engineering Undergraduate courses in CE,CSE, ECE, EEE, IT,ME, and Post Graduate courses in ECE & CSE, Masters in Business Administration and Masters in Computer Applications. It was established in the year 2007 under the aegis of SRK Foundation. The members of the foundation include renowned academicians, eminent educationalists and industrialists. The college is fully equipped with all infrastructural facilities, well qualified and experienced faculty.

SRKIT is located in the historic city of Vijayawada on the banks of the Krishna River in the coastal area of Andhra Pradesh. The city is a large commercial centre and famous for Goddess KanakaDurga temple on the Indrakiladri hills. Vijayawada is also known as educational hub in the state of Andhra Pradesh. The city is well connected by road, rail and air. The Railway station, Bus Stand and Airport area with a distance of 10 KM each from the college.

ABOUT CISCO

CISCO SYSTEMS INC. is the worldwide leader in networking for the Internet. The company was founded in 1984 by two computer scientists from Stanford University seeking an easier way to connect different types of computer systems. Since the company's inception, Cisco engineers have been leaders in the development of Internet Protocol (IP)-based networking technologies. Today, with more than 71,000 employees worldwide, this tradition of innovation continues with industry-leading products and solutions in the company's core development

areas of routing and switching, as well as in advanced Technologies such as home networking, IP telephony, optical networking, security, storage area networking, and wireless technology. In addition to its products, Cisco provides a broad range of service offerings, including technical support and advanced services.

OBJECTIVE OF THE PROGRAM

The program is designed to impart detailed knowledge of Computer Networks, various protocols used in Communication, Managing and configuring Cisco Switches and Routers and various WAN technologies.

This program represents a comprehensive overview of networking; from fundamentals to advanced applications and services. The program emphasizes concepts and skills required to design networks, while providing opportunities for practical application and hands-on experience by teaching students how to install, operate, and maintain networks.

PROGRAM REPORT

Name of the Program: Faculty Development Program on Cisco Certified Network

Associate Routing & Switching

Date: 1-05-2018 to 12-05-2018

Timings: 9.00 A.M – 5.00 P.M

The Faculty Development Program on “Cisco Certified Network Associate Routing and Switching” was organized at SRKIT from 01th to 12th May, 2018. There were **16 external participants** from different colleges and institutes and **2 internal participants** from SRKIT, Enikepadu.

The dignitaries were welcomed by Dr D. Haritha Prof, HOD CSE, SRKIT. Hon. Principal Dr M. Ekambaram Naidu inaugurated the Program with the Lamp Lightening ceremony. In welcome speech, the Dr D. Haritha shared her views with the faculty participants that attending such faculty development programs would enhance their skills of teaching concepts practically. The program progressed with the inaugural lecture by the Resource Person **Mr. Subhajit Jagadev**, Head Cisco Academy. In his lecture he highlighted the programs organized by Cisco and also gave insights on the program.

After briefing about the program **Mr. Subhajit Jagadev** started off the technical session with the introduction to networks and briefed about the basic terminology involved in networks. He also focused on the networking used in today's world. This was followed by discussion on how network affects our lives. The Second Day, started off with the discussion on network components. He emphasized on the different components in a network. The different models and topologies in networks were discussed. The Third Day included talks on the different types of networks. He stated the importance of Internet Connections in the network.

The Fourth Day of the program included talks on reliable networks and network trends. He explained practically how the reliable network looks like. This helped the participants to understand about the reliable networks in a better way. He also stated the different network trends. The Fifth Day of the program included talks on the Network Security. This was followed by the practical session. The sixth Day of the program started with the discussion of switching. He briefed about the switching. This was followed by practical session on switching.

The Seventh Day of the program included talks on the Operating System. He briefed about the Operating System. He also discussed about the Graphical User Interface and the different access methods. He briefed about the terminal emulation program. The Eight Day of the program started off with the discussion on primary command modes and different configuration modes. He also discussed about the Syntax Checker. The Ninth Day of the program included talks on Packet tracer. This was followed by hands on session on the packet tracer. The Tenth Day of the program included talks on the password guidelines, and configuration of passwords. He focused on the importance of encrypting passwords in networks. The Eleventh Day of the program included discussion on configuration of files and the packet tracer configuration. This was followed by the practical session on configuration of packet tracer and the switch. The Last Day of the program included talks on the ports and addresses. He discussed about the various IP Addresses, interfaces and ports. He then delivered a practical session on Configuration of IP Address.

Dr. D. Haritha presented the Vote Of Thanks for the program.

CCNA Routing and Switching: Introduction to Networks

The student has successfully achieved student level credential for completing CCNA Routing and Switching: Introduction to Networks course administered by the undersigned instructor. The student was able to proficiently:

- Explain network technologies.
- Explain how devices access local and remote network resources.
- Describe router hardware.
- Explain how switching operates in a small to medium-sized business network.
- Design an IP addressing scheme to provide network connectivity for a small to medium- sized business network.
- Configure initial settings on a network device.
- Implement basic network connectivity between devices.
- Configure monitoring tools available for small to medium-sized business networks.

CCNA Routing and Switching: Routing and Switching Essentials

The student has successfully achieved student level credential for completing CCNA Routing and Switching: Routing and Switching Essentials course administered by the undersigned instructor. The student was able to proficiently:

- Determine how a router will forward traffic based on the contents of a routing table.
- Explain how switching operates in a small to medium-sized business network.
- Use monitoring tools and network management protocols to troubleshoot data networks.
- Configure monitoring tools available for small to medium-sized business networks.
- Configure initial settings on a network device.
- Configure Ethernet switch ports.
- Implement VLANs.
- Implement static routing and RIPv2.
- Implement DHCP on a router.
- Implement network address translation (NAT).
- Implement access control lists (ACLs) to filter traffic.
